TDS15240 — Audio-IP software licence

To integrate multi-room/multi-source audio devices without complex wiring and additional hardware, you can use the TDS15240 Audio-IP software licence.

With this licence you can control connected audio systems from anywhere with TELETASK touch panels, remote controls, standard push buttons, PC or mobile device.

Depending on the device used, specific feedback can be displayed: volume, artist, album/track, ...

Several devices are already predefined in the PROSOFT library and can be used with minimal configuration (Sonos, HEOS by Denon, NUVO, Yamaha, B&O, Bose Sound Touch,…). See the full list in the latest version of PROSOFT – AV-SOFT. Check also the Technical Handbook – Audio-IP software licence.

Brand specific IP strings can be easily defined or customized in PROSOFT to control every available audio function.

APPLICATION

To control IP-connected audio / video systems

CHARACTERISTICS

General

With only one license you can connect an unlimited amount of audio-IP devices to a Central Unit.

In all cases max. 50 audio zones per installation.

Max. 16 sources (per audio device).

Socket based serial HEX or ASCII string (no http, xml, json,…).

'Unlimited' number of feedback / polling codes.

'Test mode' available (3 days).

! Remark: To control audio devices from a PC's or a mobile device, additional iGUI or GUI+ licences may apply.

! Remark: We advise to use one brand of audio system. However, the use of different systems in one installation is possible but can cause delay especially in SONOS.

! Remark: One licence is connected to one central unit. When different central units with one .nbt file are used in one installation – every central unit that needs an audio connection, will need a separate license.

! Remark: In case of Heos (Denon) or Nuvo the limit is 20 zones per central unit

! Remark: In case of Sonos or Bose the limit is 8 zones per central unit

SETTINGS

Configuration

Via PROSOFT Suite 3.4 or higher.

See the TELETASK Technical Handbook for implementation.
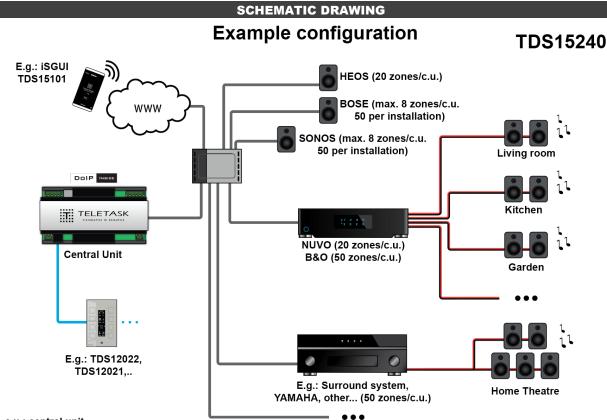

DIMENSIONS

Software licence packed in envelope.
175 W x 25 H x 5 D (mm).

NET | GROSS WEIGHT

0,090 kg | 0,130 kg
