

**TDS15105**

**GUI+ (Software License)**

This software license allows central access to all of your home automation functions from any Windows desktop, touch screen PC, laptop, tablet or ultra mobile PC.

The GUI+ controls all domotic functions, in an intuitive manner, using floor plans, photographs or schemes of your house/project. By "drag and drop" from a library containing hundreds of icons, it is possible to create a beautiful graphical user interface.

The application which can be installed on the target device (touch screen PC, laptop, ...) is free for download at [www.teletask.eu](http://www.teletask.eu) and can be used in demo-mode for 3 days.

**APPLICATION**

Local and remote control of all domotics functions using a desktop, a touch screen PC, a notebook, a tablet or ultra mobile PC.

**CHARACTERISTICS**

For Windows 7 / 8 (not RT) / 10.  
Works in "full screen" or "window" mode.

**License**

The license provides one connection between a DOIP Central Unit and a connected GUI+. This is independent from the device on which the GUI+ is running. The GUI can be installed on multiple devices but to use multiple GUI's at the same time, they will all need an individual license.

**Data**

Automatically loaded from Central Unit.

**Camera visualization**

Supports IP cameras with Motion JPEG (MJPEG) encoding (Still Image or Streaming) via HTTP protocol (URL must be available). Must be tested before use. Password protection is supported.

For any other types of camera, use the browser function.

**Video door phone and Intercom**

For video specifications, see item Camera above.  
For phone and intercom a VoIP (SIP) server is required.

**Browser**

Dynamic HTML pages, e.g. camera's, weather forecast, traffic information, e-mail, news channels, social network websites, ...

**Charts**

History of any relay, dimmer, motor, sensor or flag.

**SETTINGS**

Easy "drag and drop" configuration in PROSOFT Suite.

**INSTALLATION**

By GUIISOFT in PROSOFT Suite (starting from PROSOFT Suite 3.2 or higher). For detailed information see the "technical handbook", section "GUIISOFT".

**Activation**

Online - [www.teletask.eu](http://www.teletask.eu). An activation file can be downloaded if the following data is provided: the License code, the type and serial number of the Central Unit.

**Test mode**

Available (without activation) for a maximum of 3 days.

**CONNECTIONS**

**LAN**

Through Ethernet or via a Wi-Fi Access point/router.

**WAN**

Through Ethernet, Wi-Fi hot spot or mobile data connection (GPRS, EDGE, 3G, HSDPA, ...), secured with a VPN connection. A mobile data subscription and router with VPN technology are required. See technical handbook, for more detailed information.

**PACKAGE DIMENSIONS**

175 W x 250 H x 3 D (mm)

**PACKAGE WEIGHT**

0,1 kg

**PACKAGE CONTENT**

License code for GUI+.

**SCHEMATIC DRAWING**
