

TDS99019

PICOS Starter kit

Take your first steps into the world of TELETASK home automation. Use this kit to discover our brand and create your first installation. Get started now, everything you need is right here.

The configuration possibilities are endless: turn on the driveway lights at night when someone leaves the home, set a party mood with one button which dims the lights, turns on the music and activates the AC. With the included mobile app license you can control everything from your smart phone and tablet. Or add a voice assistant and Voice Control subscription (not included) and control the dining room LED's, etc... with your voice. Use the online training platform TT School (www.professional.teletask.be; English language) or contact your local TELETASK distributor to guide you through the learning process.

APPLICATION

Training and programming practice

CHARACTERISTICS

Content

- PICOS Central unit - TDS10009
- Power Supply - TDS10132
- AURUS-OLED Black - TDS12022BL
- IR Remote Control - TDS12503
- 1m AUTOBUS Cable
- TELETASK App iSGUI License - TDS15101

INSTALLATION

See drawing.

DIMENSIONS

545 W x 420 H x 80 D (mm)

NET | GROSS WEIGHT

2.44 kg | 3.36 kg

ENVIRONMENTAL CONDITIONS

Storage (with no condensation or icing)

Temperature: -20°C to +65°C max.
Relative humidity: 5% to 85% max.

Operation (with no condensation or icing)

Temperature: 0°C to +50°C max.
Relative humidity: 5% to 80% max.
